

# Financial Management

## Understanding business financials is the basis of business success!

Don't be baffled by profit and loss statements, balance sheets or cash flow statements. Make them work for you!

This easy-to-follow workshop provides ways to identify the financial information you need to:

- know how your business is performing
- make key financial decisions
- identify which figures you should track regularly
- spot if there's a problem in the business that needs to be fixed

Business Local is a **FREE** service for new and existing businesses. We provide free, confidential and practical assistance on a wide range of business related issues.

Call Shane Reilly, Esperance Business Advisor, on 9071 5142 for more information.
