

# YOU ARE INVITED TO ATTEND THE ARC INFRASTRUCTURE BUSINESS AFTER HOURS ON FRIDAY 1 SEPTEMBER 2017

Arc Infrastructure is the new name for Brookfield Rail, but our commitment to managing vital transport infrastructure in Western Australia remains unchanged. Rail is at the heart of our business. The 5,500km rail network we operate is the backbone of freight transport in WA. We provide the infrastructure to enable our customers to run the trains and get their products to where they need to go.

The rail network we manage covers an area twice the size of Great Britain and we move tens of millions of tonnes of diverse and essential products each year through the close partnerships we have in the communities we operate in. Spread across regional WA, our team of over 400 employees keeps the trains moving 24 hours a day, seven days a week.

Arc Infrastructure supports the community by employing, living and buying local. Forty five percent of our employees live and work in regional WA and they have a genuine desire to make a real and positive difference in their communities.

At Arc Infrastructure, we're committed to working with industry, our customers, partners and communities to find new opportunities that support growth, create jobs and improve quality of life in our State. Safely connecting and contributing to Western Australian communities is what we do and we're in it for the long haul.
